Hearing cured cases is such an inspirational experience. The Washington Homeopathy Association (WAHA) and the Department of Homeopathy at Bastyr are bringing together four excellent homeopaths who will each present a cured case. These four masters will let us hear their cases and walk us through what they saw, how they selected the remedy, and how the remedy acted.

There are several methods of case-taking that still respect the underlying tenants of classical homeopathy, and these four practitioners each has a coherent method that achieves healing results. At the end, they will sit together on a panel to answer questions and respond to comments.
